IGG meeting in Sweden

Safety information and registration for attending pilots

Rules

- When participating at an IGG meeting in Sweden, You must be a registered member in a national association, where a third party liability insurance is included. Alternatively You can have another, equivalent insurance, valid at the meeting.
- You must know and follow the local rules at the meeting.
- You must always carry the right frequency peg before turning on your transmitter.
- You shall be attentive to and follow the directives of the Flight Director.
- Switched on cell phones shall be at least 5 meters away from used R/C-transmitters.
- When flying, always stand in the pilot box.
- Announce starting, landing, low flybys or problems that can cause danger.
- Please fly in a responsible manner (e.g. not at low altitude where people may reside).
- You are responsible for your equipment being safe and in good order.

Fredrik Strömberg is the Safety Officer for IGG Sweden.

I have read and accept the safety rules above
